

Riley Nidositko

Boston, MA 02215 ♦ 339-214-8058 ♦ rnicositko@gmail.com

Portfolio: <https://rileynicositko.github.io/RileyNidositkoPortfolio/>

Education:

Bachelor of Science: Mechanical Engineering, Expected 05/28

Boston University - Boston, MA - 3.58/4.0 GPA, Dean's List (Year 1, semester 2)

Featured Projects:

Aerodynamic Radiator Duct Design: *Boston University Formula SAE Electric Team, Terrier Motorsport.*

- Designed new radiator mounting and ducting to ensure optimal air flow to the cooling system.
- Implemented fiberglass composite manufacturing to create lightweight aerodynamic structures.

PID Control Ball-Balancing Platform: *Independent Project*

- Designed, built and coded a robotic articulating platform that balances a ball using PID control.

Brass Pen: *Independent Project*

- Engineered and machined a unique pen design to practice CAD and manual lathe skills.

Work Experience:

Engineering Product Innovation Center, Boston University, 01/26 - Present

Lab Assistant

- Guided students and researchers through CAD/CAM, material selection, and tool operation.
- Serviced lab equipment and documented maintenance. Including CNC and manual mills/lathes, laser cutters, waterjets, sheet metal tools, 3D printers, hand tools, etc.
- Executed and taught proper lab and machine safety.

South Shore Pool Supply, 05/25 - 09/25

Maintenance Technician

- Applied technical troubleshooting and critical thinking to diagnose and fix problems.
- Advocated client communication and conflict management to maintain optimal service.
- Organized billing for customers and managed work time autonomously.
- Practiced proper chemical safety to guarantee client and employee protection.

Independent Music Lesson Instructor, 05/24 - 09/24, 05/25 - 09/25

- Networked to clients and developed strong relationships with students and parents.
- Assessed student progress regularly, providing tailored feedback and support.
- Managed multiple age and skill levels from beginner to intermediate.

Skills and Certifications:

Software: Solidworks, Fusion 360, Onshape, C++, Python, Java, Javascript, Matlab.

Technical: MIG/Flux Core Welding, Manual Lathe/Mill, Laser Cutting, Soldering, 3D Printing.

Adult and Pediatric First Aid/CPR/AED certified.

SciSure Safety Trainings: Fire Safety, Laboratory Safety Training, Hazard Communication, Chemical Safety Training, Personal Protective Equipment Fundamentals, Machine Guarding.

Leadership experience:

Aerodynamics and Bodywork Team Lead, 12/25 - Present

Boston University Formula SAE Electric Team, Terrier Motorsport.

- Oversaw the design and construction of all aerodynamic devices and bodywork.
- Taught members teamwork and technical skills focusing on composite manufacturing.
- Led assigning work packages and placing orders while upholding healthy communication and working environments for members.

Co-founder and Mentor, *Scituate High School FIRST robotics, Cyber Sailors Team 8626.*

- Facilitated a welcoming learning environment for students.
- Trained students on technical, teamwork, and safety skills.
